

Impromptu Schonbek

Impromptu, a premium statement piece, combines Schonbek signature finishes with a subtle touch of embedded crystal. Its visual rhythm is created by a play of layers around a warm inner light. Made with Swarovski Elements, Impromptu is now offered in two new finishes, Blue Rhythm or Red Harmony. www.schonbek.com

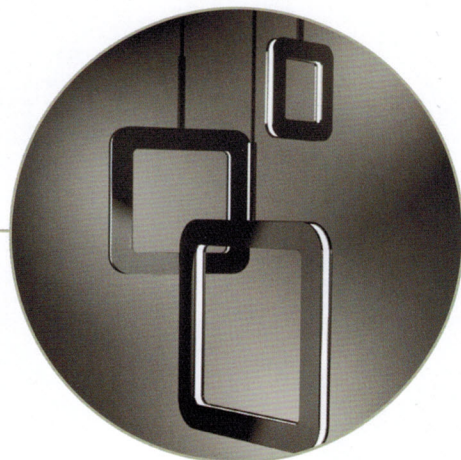

Aria Slamp

Designed by Zaha Hadid, Aria combines dramatic architectural features with the intrinsic weightlessness of Slamp's patented techno-polymer Cristalflex. The piece comprises a central structure of six light sources, capable of flooding a space, and a downward spot. It is 130cm high with a diameter of 90cm. www.slamp.it

Didi' Status

Designed for Status by Italian studio Tonettidesign, Didi' is a family of polycarbonate pieces that produce both direct and diffuse LED light. The simple square-frame body incorporates a glowing, diffuse edge. Didi' is available in table-top, suspension and wall-mounted versions. www.status.it

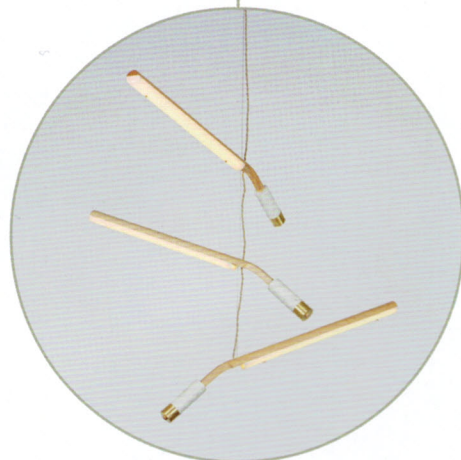

HeadHat Santa & Cole

This flexible system of pendant lamps can be fitted with a range of shades (or 'Hats') of differing sizes and materials thus allowing a multitude of customising options to the core light capsule (the 'Head'). The first five shades in the series come in ceramic and aluminium. www.santacole.com

Counterweight Roll & Hill

Counterweight is made of gently arching, steam-bent wood that uses marble and brass as ballasts. Whether acting as a cantilever to the arms of the mobile version, or fixed as the base of the floor lamp version, the mass of stone and metal acts as a foil to the otherwise lightweight frames. www.rollandhill.com

In & Out Forestier

Designed for Forestier by Paris-based creative Arik Levy, the In & Out is a lamp-cum-table with the durability to be used outdoors and the gentleness of style to be perfectly at home indoors. The piece is fitted with an 11W E27 CFL light source and measures 53cm in diameter. www.forestier.fr
